Re: Petition of T-Mobile USA, Inc. for Clarification, WC Docket Nos. 04-36 & 05-196 (filed
July 29, 2005)

Dear Ms. Dortch :

Pursuant to Sections 1.1204(a)(10)(iii)-(iv) and 1.1206(b) of the Commission's rules, this is to inform the Commission that the undersigned spoke via conference call on August 20, 2008 with Angela Giancarlo, Chief of Staff & Senior Legal Advisor for Commissioner McDowell, regarding questions Ms. Giancarlo had about an ex parte communication filed on August 19, 2008 by the Association of Public-Safety Communications Officials ("APCO") and the National Emergency Number Association ("NENA").

During the conversation, it was reiterated that NENA believes that having the ability to route calls based on the last known location of a caller roaming on another provider's network would provide public safety benefits. NENA would support the Commission taking steps to address this issue and we hope that affected parties would submit information on the feasibility of providing the last known location of a caller roaming on another provider's network.

Please direct any questions to the undersigned.

Sincerely,

Brian Fontes
CEO
